

Only a few weeks until..

NMEC - New Zealand's National Maintenance Engineering Conference

Without exception, the very best learning experience for engineers in NZ

Send your Plant and Maintenance Engineers to the National Maintenance Engineering Conference (NMEC) in Hamilton this November 15th & 16th.

The 2 days and evenings of extremely practical and real learning costs only \$725 + GST.

A second person from the same company is only \$495, and students are only \$145.

The programme for 2017 has a wide variety of topics that will challenge and absorb participants. There is something that will directly benefit every maintenance engineer in NZ.

- The Importance of Shutdown Assurance Management - from strategy to closeout.
- How to protect your business from Counterfeit and Poor Quality materials
- H&S made simple, logical and real. How not be drawn into the 'smoke and mirrors' gravy train of the H&S industry. A real eye-opening look at what YOUR HR and H&S staff are doing wrong in implementing the new H&S law in your plant.
- Serious Stress Raisers – how the life of steel is affected by what you do it.
- Filtration Standards and Classifications - Food Safety and How It Is Applied to Filtration
- Main-streaming of full-strength metal 3D-printed components in NZ
- Steam. How to stop bleeding \$ while improving product quality and plant productivity.
- Women make great Engineers – but where are they?
- Failure analysis case studies
- The Lifeblood of Machinery - Machines live and die by Lubrication. How to get it right.
- Machinery Alignment for Better Performance
- Maintenance Management is a Management skill
- Producing high quality compressed air to ISO standards
- Detecting Potential Insulation Breakdown in Electrical Machines.
- PLC's – Planning for control system failure: risk analysis, running repairs, disaster recovery.
- Debunking the common myths surrounding Variable Speed AC Drives (VSD's)
- How to run an engineering business where apprentices can thrive
- Getting the most out of your Geared Motor Drives - how to protect your investment
- Industrial automation using IOL sensors
- Lean Maintenance

There's even an optional pre-conference day where you can undertake specialist technical training or take a field trip to the HQ of kiwi global success, Gallagher Group.

Go to www.nmec.co.nz for detailed information and to register. You will be amazed at how much learning and connecting you can pack-in at NMEC.

MESNZ and NMEC - helping companies and engineers with whatever they need to achieve constant improvement across every single aspect of their plant.
